

Script Video6clone

En cours de développement

Paquet à installer

YAD

<https://packages.debian.org/sid/amd64/yad/download>

mediainfo

```
apt-get install mediainfo
```

mediainfo-gui (optionnel)

```
apt-get install mediainfo-gui
```

Script

```
#!/bin/bash

inFichier=$(yad --file --multiple --width="700" --height="500" --
separator="\n" --center --filename="/home/$USER/Bureau/")

# modification de l'IFS pour qu'il passe en saut de ligne
old_IFS=${IFS} IFS=$'\n'

for i in ${inFichier}
